

Resume for Kin Lane - Summary

409 Pacific Coast Hwy Redondo Beach, CA 90277

Email: info@kinlane.com

Website(s): kinlane.com & apievangelist.com & apivoice.com

Phone: 541.913.2328

Career Objectives

I have been developing database applications for over 25 years and web applications for the last 15 years. The last 6 years I've spend a great deal of time building social and cloud driven applications using JavaScript, various frameworks, APIs and cloud technologies. My career objective is to take my experience in application, data, platform, infrastructure, business, and product development and continue to define the best practices around the technology, business and politics of API platforms..

Areas of Expertise

Search Engine Optimization (SEO) and Search Engine Marketing (SEM) and Social Media Marketing (SMM)

User Interface Design / Documentation / Prototypes

Idea Generation / Product Development / Research and Development

.Net / PHP / Ruby / JavaScript

HTML – XHTML – DHTML – Cold Fusion - JavaScript / AJAX

Microsoft SQL Server 2000 / 2005 / 2008 / MySQL / PostgreSQL

Application Programming Interface - XML - JSON - REST - SOAP

Cloud Computing - SaaS, PaaS, IaaS, BaaS

Personal

I am very passionate about technology and its usage in business, education, non-profits and government. Beyond learning in this area I spend time with my beautiful daughter and thoroughly enjoy the outdoors through hiking, swimming, snowboarding, mountain biking and traveling as much as I can. I take my work very seriously and learn, work and grow every day, but I also work hard to keep a healthy work life balance to make sure I'm successful in both areas of my life.
